The New Standard in Hybrid Event Switching

PIDD 15 JUNE 2021 – 08:00GMT / 09:00CET
AVAILABLE SEPT 2021

Portable hybrid event switcher with comprehensive features and connectivity

Professional hybrid event switcher with eight SDI and eight HDMI inputs, three SDI and three HDMI outputs, USB-C webcam streaming output, 40-channel audio mixing, advanced automation features, and more.

Filled with pro features to take on any modern production, the V-160HD sets a new standard in hybrid event switching. Connect with live audiences in Full HD with comprehensive SDI and HDMI I/O and simultaneously stream to any popular web platform via USB-C. There's also an eight-layer video effects engine, a 40-channel digital audio mixer, and integrated PTZ camera control, plus next-generation cue management and live show automation features that make tough production tasks simple. And everything's all wrapped up in a portable design with a broadcast-style interface that's easily handled by a single operator.

- Eight 3G SDI inputs with frame rate converters
- Eight 1080p HDMI inputs with frame rate converters, including four with real-time scalers
- Seven total outputs across SDI, HDMI, and USB-C streaming
- Seven selectable output modes: Program, Sub-Program, Aux, Preview, and three Multi-View options
- 40-channel digital audio mixer with effects and processing
- Eight-layer video effects engine
- 16-slot still store function supports screen capture or uploaded BMP, JPEG, and PNG images via alpha channel in the internal non-volatile memory
- Powerful live production automation with sequencing, macros, and preset memories
- PTZ control with support for multiple brands and mixed protocols running at once
- Extensive device control with Bluetooth, USB, RS-232, and LAN
- Remote control software available for iPad, macOS, and Windows
- Wireless and wired camera tally support
